Wireless Z-Chuk™ (ENGLISH)

Thank you for purchasing the Mad Catz Wireless Z-Chuk for use with the Nintendo Wii video game system. Do not use this product online at www.madcatz.com and check out our full line of other quality video game accessories.

IMPORTANT: Before using this product, read the Nintendo Wii instruction manual for safety and other information regarding the use of the Nintendo Wii.

Charging:

The Wireless Z-Chuk (hereafter "WZ") has an internal battery which must be fully charged before initial use. The first charge will take approximately four (4) hours and the battery should function for approximately twelve (12) hours once fully charged.

- Insert the Z-Chuk into the USB port into the bottom of the WZ and the other end into an available USB port on a game console or PC/Mac.

- The WZ's internal Red LED will illuminate while the battery is charging and go out once charging is complete.

Connecting to a Wii Remote:

- Ensure the WZ console and Wii Remote are both powered ON and functioning normally.

- Set the WZ power switch to the "ON" position. The WZ's internal LED will go out and the red LED will illuminate.

- Within forty-five (45) seconds, press the "SYNC" button on the WZ.

- Within thirty (30) seconds, the WZ's receiver into the expansion port on the bottom of the Wii Remote.

- Once a wireless connection between the WZ and the Wii Remote has been successfully established, both the WZ internal LED and the receiver's LED will illuminate solid blue.

Sleep Mode:

After five (5) minutes of inactivity, the WZ will enter Sleep Mode. The WZ's internal LED will go out and the red LED will illuminate. To exit Sleep Mode, perform the following methods to awaken the WZ:

- Press either the "C" or "Z" button.

- Set the WZ power switch from the "OFF" to the "ON" position.

Low Battery Indicator:

When the WZ's internal battery is in need of a recharge, the WZ's internal LED will flash blue.
